

Planning an international career move to Singapore? Make sure you are ready for it!

Do you know enough to conquer the Singaporean labour market? Is a Singaporean recruiter looking for a team player or a lone wolf? What should you do if you are a couple of minutes late for the interview? Who should you speak to you in a company when you need something done quickly? The answers to these questions are the key to success or failure when looking for a job and working in Singapore. The newly updated 'Looking for work in Singapore' guide provides you with the information and answers and informs you of important facts in labour markets, key areas to look for work, and what to expect in interviews.

Expertise in Labour Mobility (ELM) has updated the 'Looking for work in Singapore' guide, providing practical, specific information for the individual job-seeker, the new expat, the young professional and the entrepreneur. Since it contains cultural advice and tips, and a brief history of the country, it offers more than just career advice for those with a zest for working in Singapore. The guide delivers first hand advice on where and how to start the job hunt, as well as a deeper insight into Singaporean management culture and way of life. The guide helps professionals to take the first successful steps into the Singaporean job market and make a start in a new country. Since Singapore is a multi-ethnic country, the guide even offers some tips on how to behave without stepping on anyone's toes!

In the past few months, ELM's international and local experts have researched fervently, and are proud to announce the release of 'Looking for work in Singapore' in August 2010! Joining the series of 'Looking for work in ...' Country Guides, most of the titles are now also available on amazon.com as well as through our own labourmobility.com website.
